Computer Science
Vivien do Carmo
Submitted by Stephen Strenn

Vivien is truly a bright star in Computer Science. Over the past two years at SBCC, Vivien has earned a 3.9 GPA and been a perennial member of the President's Honor Roll. He has been President of the Team Programming Club, Co-founder of the Web Dev Club, a Leader on SBCC's Intercollegiate Programming team. He contributes to the department on a daily basis as an excellent tutor and reader.

True to form, Vivien thrives outside of school as well. He is an avid hiker, backpacker, and rock climber. He also speaks four languages, which has been particularly rewarding for him as someone who loves to travel and socialize.
